

SF12CS – Pound For Pound The Toughest Camera

THE MONGOOSE SF12CS by SYN-FAB

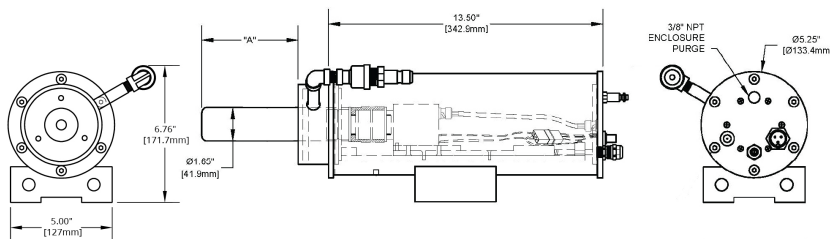

Designed from one of our oldest and most rugged product lines, but outfitted with a new high-definition sensor it is the best of both worlds. It utilizes a combination of high-tech electronics and well protected optics to provide an imaging solution that will last even in the worst of conditions.

SCALE: 1:4
WEIGHT: 20lbs [9kg]

LENS	"A" DIMENSION
OPT18	15.75" [400mm]
OPT24	22.20" [563.9mm]
OPT36	34.10" [866.1mm]
OPT48	45.70" [1160.8mm]
OPT60	57.95" [1471.9mm]
OPT65	62.40" [1585mm]

SPECIFICATIONS

Spectral Range	Visible
Resolution:	HD Digital
Frame Rate	30
Power	12vdc
Lens Length	12-65"

Field of View	65, 90, 120°
Angles of View	45°, 90°, Straight
Cooling Air	20scfm @ 20psig
Signal Transmission	Coax, Fiber Optic, Ethernet, Wireless
Max Ambient Temp	550° F with Accessories
Software	Field Upgradable

BENEFITS:

- Maximize efficiency and capacity with unparalleled levels of definition.
- Reduces emissions by improving performance.
- Helps reduce slag, clinker and lower maintenance costs.
- Optimize and control setups.
- Assists in shaping and positioning fuel beds.

OPTIONS:

- Available in Stainless Steel.
- Lens lengths from 12" to 65".
- Automatic retract assembly.
- Custom options Class 1 div2 compliance.
- Fiber Optic, Coax, Ethernet, Wireless.
