

THE SENTINELS – Ever Vigilant

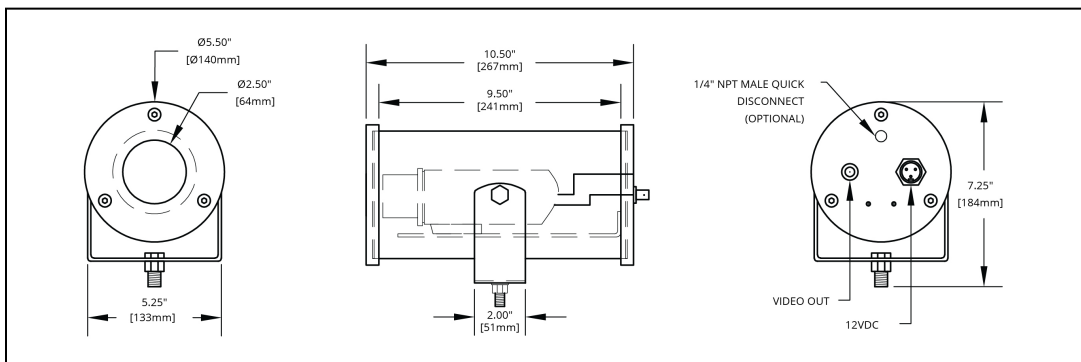

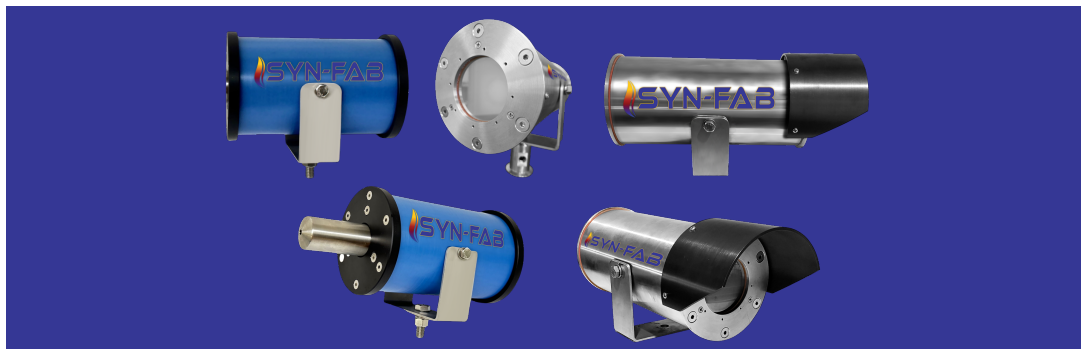

THE SENTINELS

SF20C, SF21C, SF30C, SF30TI, SF31C and SF36C

The Sentinels are a camera group designed to provide a high-definition video over a wide range of ambient conditions. With options available to allow the base camera model to be modified in order to be deployed in the following environments: high temp, caustic, dusty, class 1 div 2, and near darkness.

SPECIFICATIONS

Sensor	CVBS, Full HD 1080p, 2MP IP, IR
Signal Trans:	Coax, Ethernet, Fiber Optic, Wireless
Power:	12vdc
Cooling Air:	Optional (3-10scfm @ 3-10psig)
Housing Material	Stainless, High Temperature Synthetic
Lenses	5-50mm

BENEFITS:

- Maximize efficiency and capacity with unparalleled levels of definition.
- Improve safety and productivity by monitoring all levels of production.
- Optimize and control setups.

OPTIONS:

- IP66 housing available in nylon or Stainless steel.
- Many lens options available to customize fields of view.
- Custom options Class 1 div 2 compliance.
- Data interface to plant network.
- Air wipe for dusty or wet environments.
- IR sensors for temperature data or steamy environments.
- Fiber Optic, Coax, Ethernet IP, Wireless.
